Welcome to a Healthy Meal Plan That Makes Sense.

When you're trying to eat better, sometimes you just want someone to *tell* you what to eat. You want a nutritionally balanced plan that works in the real world. Which is to say you don't want to cook a dozen recipes in a single day or have to shop at 17 different stores. What's more, you want everything on this "perfect" plan to taste delicious: after all, why would you eat anything you don't enjoy, *especially* if you're cutting calories?

These meal plans are all that and more. Developed by EatingWell's team of Test Kitchen experts and registered dietitians, the plans meet high standards for "good

▶ Hint: Start the plan on a Sunday. The program is designed so that you're cooking big batches on Day 1—and eating up leftovers later in the week.

taste" and "good health." They're designed to keep you at the calorie target that's right for you and help you limit sodium (and saturated fat)—as well as get enough of nutrients, such as calcium and fiber, you might be falling short. The meal plans help you meet these nutritional needs by suggesting the very sorts of foods recommended by the Dietary Guidelines for Americans: vegetables, fruits, whole grains and lean proteins (including low-fat dairy). And while they encourage a healthy variety, they are also practical, making use of leftovers so you aren't wasting food. Finally, and perhaps best of all, the plans are completely customizable—which means you eat what you *like*. Because isn't that what really matters when you're trying to create healthier habits that stick? Let's get started!

These meal plans are all that and more. Developed by EatingWell's team of Test Kitchen experts and registered dietitians, the plans meet high standards for "good

How to Use This Program:

1 Pick the right plan.

Calculate your daily calorie target. To estimate how many calories you need each day to stay at the weight you are right now, multiply your current weight by 12. If you want to lose about a pound per week, subtract 500 calories from the number you calculated with this (x12) formula; to lose about two pounds per week, subtract 1,000 calories. Round up to 1,200 calories if you've calculated a smaller number: below that level, it's hard to get all the nutrients your body needs.

Choose the plan that's best for you—start with the level closest to the calorie target you just calculated: 1,200, 1,500, 1,800, 2,000 or 2,200. If you're in between two, take your pick. Obviously, you'll lose weight a little faster at the lower level.

Example:

If your current weight is
145 pounds
and your goal is to
lose 1 pound per week...

▶ (P.S. If you lose a substantial amount of weight on the plan, you may want to run the calculation again, as your calorie needs will have changed.)

$$\begin{array}{r} 145 \text{ [lb.]} \\ \times 12 \\ \hline 1,740 \text{ [calories]} \\ - 500 \text{ [calories]} \\ \hline 1,240 \text{ calories} \end{array}$$

How to Use This Program (continued):

2 Customize menus to suit your tastes.

Mix and match whole meals. Our meal plans are flexible, allowing you to swap meals within a category (e.g., breakfast or dinner) and still keep calories consistent. For example, if Tuesday's breakfast doesn't sound good to you, you can simply replace it with Friday's. Similarly, since most recipes in the plans serve four, you may have, and want to use, leftovers in place of a "regularly scheduled" meal. On the flip side, some weeks *plan* for leftovers—we've marked those for you—so if you didn't make that meal, you'll have to adjust. Keep in mind that once you start making changes there's no guarantee that your new, customized plan will be 100 percent nutritionally balanced. (And be sure to adjust your shopping list accordingly!)

Make single swaps. If the plan suggests a banana (105 calories) for a snack and you'd rather have a cup of cherries (97 calories), go for it. That said, if you find yourself noshing on higher-calorie dried cranberries instead (187 calories per ½ cup), be sure to subtract the extra 80 or so calories from somewhere else—you might consider having your sandwich at lunch open-face, for example. Find calorie counts for common foods at the USDA's Nutrient Database: <http://ndb.nal.usda.gov>.

Account for extras. Our menus don't include many (calorie-containing) beverages. Water is the best way to hydrate when you're aiming to slim down. But if breakfast just isn't breakfast without a little OJ, and juice isn't on the day's plan, have some—

➔ **Hint:** Don't forget to read labels! We may list a serving of lemon yogurt as having 105 calories—but pick up one with 220 calories and, over a year, the extra calories could add up to more than 10 pounds!

knowing that ½ cup (4 ounces) delivers the calories of a whole orange, minus the 4 grams of fiber. If you like a glass of wine or a beer with dinner, have it in place of dessert or bread (a 5-ounce glass of wine or 12-ounce bottle of beer generally has 125 to 150 calories). Coffee and tea are freebies, even with a splash of low-fat milk—but if you use more than ¼ cup of milk or you opt for cream (or flavored creamer), be sure to count those calories and eliminate

them somewhere else. And on the topic of extras, don't lose count of the calories in condiments, which can pack more than you might think—2 tablespoons of ketchup, for instance, has 30 calories and 334 mg sodium!

3 Assess and adjust.

Are you eating enough? If you're losing weight rapidly but also feeling very hungry, you might want to bump up to the next calorie level. We all burn calories at different rates. The formula you used in Step 1 assumes a relatively low level of physical activity, so if you exercise regularly it may underestimate your calorie needs.

Are you eating too much? If you're trying to lose weight and following the plans religiously, but the scale isn't budging, make sure you're not underestimating your portion sizes: measure, or weigh, everything you eat for a week and see if that jump-starts your weight loss. If you're still not losing—and you're remembering that healthy weight loss is a slow-and-steady one to two pounds per week—consider dropping to a lower calorie level, making sure not to dip below 1,200 calories per day.

Consider: Maybe you're doing it just right! Give yourself credit for your small successes and don't get down on yourself when you slip up. Just acknowledge the "mishap" and move on. Little lapses are part of every journey toward healthier habits. You're on your way!

➔ **Hint:** We assume you may already have some ingredients at home, and so instead of listing them in the main shopping list we tell you to check your pantry for these foods. Do read the pantry list carefully, as some healthy ingredients (e.g., quinoa) may be new to you.

“Let’s Make It Work” Cheat Sheet

Paging through the meal plans, you may notice some things that are confusing... or not to your liking. Don’t sweat it. **Do** read through this section, which offers explanations and adaptations to help you “make it work.”

The problem: The plan says to eat 1 ounce of cheese—and you don’t know how much that is.

The solution: Generally, 1 ounce of cheese (about the size of 2 dominos) is about ¼ cup shredded. But we highly recommend getting an inexpensive kitchen scale (such as the EatSmart Precision Pro digital scale, which sells for about \$25) to measure portions accurately.

The problem: You really like your lattes.

The solution: Many meals on the plan include a cup of nonfat milk. If you choose to mix that milk with espresso (and you’re not restricting caffeine for any reason), who are we to say that’s not a brilliant idea? Do keep in mind, though, that **1 cup of milk is 8 ounces and typically the smallest latte you can buy is 12 ounces, so you’ll need to adjust calories.** Also, if you’re ordering out, don’t forget to specify “nonfat” milk—the default at most coffee shops is 2% or whole.

The problem: Eating plain yogurt isn’t your style, or at least not yet.

The solution: Stir in some fresh fruit or even a teaspoon or two of a sweetener, like honey. Or substitute a fruit-flavored yogurt. Whatever solution you choose, be sure to account for any extra calories (and, if you’re using a sweetener, added sugars) and subtract them from somewhere else.

The problem: You get bored drinking plain water.

The solution: Make it a seltzer. Better yet, make it seltzer with a squeeze of lime or a twist of lemon. Or try unsweetened iced tea. If you’re craving more flavor, try splashing a little bit of 100% fruit juice into your seltzer: ¼ cup of cranberry juice goes a long way and costs you only 34 calories.

The problem: You like something on those steamed vegetables (or plain grains).

The solution: Sure! There are lots of ways to jazz up vegetables or grains, calorie-free. Try chopped fresh herbs, such as cilantro, parsley, dill or tarragon; a sprinkle of curry powder, garlic powder or lemon pepper; a squeeze of lemon or lime juice and/or the zest; a splash of rice vinegar, balsamic or sherry vinegar—or a couple of dashes of a flavorful hot sauce (check the sodium, though, as hot sauce can pack nearly 200 mg of sodium per teaspoon).

The problem: You like to switch up your snacks, but the plan repeats the same ones.

The solution: If varying your snacks helps keep you engaged, go for it! We limited the number of different snacks to keep the length of your weekly shopping list reasonable and also because some research suggests that people who eat the same thing day after day have an easier time making healthy changes. Need ideas? Consult our “Swap-In Snacks” (page 5).

The problem: Blueberries aren’t in season. Buying them fresh is breaking the bank.

The solution: Consider buying frozen. **Frozen fruits and vegetables are just as nutritious as fresh—sometimes even more so since they’re picked, and frozen, at peak ripeness.** (Just

double-check the ingredient list to make sure there are no added sugars or salt.) To thaw, simply place your serving in the fridge overnight.

Limiting sodium is important for heart health—and requires some shopping savvy. Use these helpful hints to guide you through the aisles.

Shopping tips to keep sodium down

- ✓ **Canned beans and tomatoes:** Look for ones labeled “no-sodium” or “low-sodium.” (These terms are regulated by the FDA and mean less than 5 mg and 140 mg per serving respectively.) Rinse beans before you use them to remove some of the excess sodium.
- ✓ **Broth:** Some store-bought broth delivers close to 1,000 mg sodium/cup. Choose reduced-sodium (averaging 500 mg/cup), no-salt-added (averaging 200 mg/cup) or low-sodium (140 mg or less/cup) stock or broth. Some are lower in sodium, but not labeled as such—so compare among brands.
- ✓ **Breads and cereals:** Most store-bought breads, including rolls, pita bread and regular sandwich slices, have a significant amount of salt added to them. Compare nutrition information when choosing. (As a point of reference, the multigrain sandwich in these plans has a relatively low 170 mg of sodium.)
- ✓ **Meat, poultry and seafood:** Check labels to avoid meat, especially turkey and pork, “enhanced” with a sodium solution.
- ✓ **Cheeses:** Many cheeses, including Cheddar, feta and Parmesan, are high in sodium—which is one reason you’ll see a lot of Swiss, a cheese that’s naturally lower in sodium, in these meal plans. If you’re planning to make a switch, consider that you’re likely adding sodium.

Swap-In Snacks

Sticking to the snacks (and meals) prescribed in the plans will ensure that your day is nutritionally balanced—but it’s fine to go “off script” once in a while. Cups of yogurt or lower-sodium cottage cheese make great mini meals, as do pieces of whole fresh fruit. Or try one of these under-150-calorie picks:

1. Cheesy Popcorn: Toss 1 cup of air-popped popcorn with 2 tablespoons of Parmesan and cayenne pepper to taste. *75 calories; 3 g fat (2 g sat, 1 g mono); 9 mg cholesterol; 7 g carbohydrate; 0 g added sugars; 5 g protein; 1 g fiber; 153 mg sodium; 43 mg potassium.*

2. Sardines & Crackers: Top a whole-grain Scandinavian-style cracker (e.g., Wasa, RyKrisp) with 2 to 3 canned sardines, preferably packed in olive oil. Finish with a squeeze of lemon. *64 calories; 2 g fat (0 g sat, 1 g mono); 20 mg cholesterol; 8 g carbohydrate; 0 g added sugars; 4 g protein; 1 g fiber; 94 mg sodium; 102 mg potassium.*

3. Pistachios & Cherries: Combine ½ ounce dried cherries with ½ ounce unsalted shelled pistachios. *106 calories; 0 g fat (0 g sat, 0 g mono); 0 mg cholesterol; 23 g carbohydrate; 0 g added sugars; 1 g protein; 1 g fiber; 0 mg sodium; 293 mg potassium.*

4. Chocolate & Nut Butter Bites: Top a ¼-ounce square of bittersweet chocolate with ½ teaspoon of almond butter (or your favorite nut butter). *79 calories; 6 g fat (2 g sat, 1 g mono); 0 mg cholesterol; 9 g carbohydrate; 6 g added sugars; 1 g protein; 1 g fiber; 12 mg sodium; 20 mg potassium.*

5. Pears & Blue Cheese: Top 1 cup sliced water-packed canned pears with 1 tablespoon crumbled blue cheese. *96 calories; 2 g fat (1 g sat, 1 g mono); 5 mg cholesterol; 19 g carbohydrate; 0 g added sugars; 2 g protein; 4 g fiber; 104 mg sodium; 147 mg potassium.*

6. Hummus & Vegetables: Dip ¾ cup mixed vegetables (e.g., baby carrots, cherry tomatoes, red bell pepper slices) into 3 tablespoons prepared hummus. *108 calories; 5 g fat (1 g sat, 2 g mono); 0 mg cholesterol; 13 g carbohydrate; 0 g added sugars; 5 g protein; 5 g fiber; 196 mg sodium; 274 mg potassium.*

Dinner: Vegetarian

Baked Curried Brown Rice & Lentil Pilaf

Makes: 4 servings, 1¼ cups each
Active time: 5 minutes **Total:** 1 hour

Pop this fast and fragrant vegetarian dish into the oven and forget it till the timer rings.

- | | |
|---|--|
| 1 tablespoon butter | 4 ⅛-inch-thick slices peeled fresh ginger |
| 1 cup brown basmati or brown jasmine rice | 1-2 teaspoons red curry paste (see <i>Tip</i>) or 1 tablespoon curry powder |
| 4¼ cups water | ½ teaspoon salt |
| 1 cup brown lentils | 4 scallions, trimmed and sliced |
| 4 cloves garlic, peeled | |
| 1 cinnamon stick | |

1. Place rack in lower third of oven; preheat to 350°F.
 2. Melt butter over medium-high heat in a large ovenproof Dutch oven; add rice and cook, stirring, until lightly toasted, about 1½ minutes. (If using curry powder, add it now and cook, stirring, until fragrant, about 15 seconds.) Add water. Stir in lentils, garlic cloves, cinnamon stick, ginger, curry paste, if using, and salt; bring to a boil, stirring to dissolve the curry paste.
 3. Cover the pot tightly with a lid or foil. Transfer to the oven and bake until the rice and lentils are tender and all the water is absorbed, 50 to 55 minutes. Fluff with a fork, removing the cinnamon stick and ginger slices. Serve garnished with scallions.

- Carbohydrate Servings:** 3½
- Exchanges:** 3½ starch, 1½ very lean meat, ½ fat

Tip: Red curry paste is a blend of chile peppers, garlic, lemongrass and galangal (a root with a flavor similar to ginger). Look for it in jars or cans in the Asian section of the supermarket or specialty stores.

Curried Tofu Salad

Makes: 6 servings, 2/3 cup each
Active time: 20 minutes **Total:** 20 minutes
To make ahead: Cover and refrigerate for up to 2 days.

Red grapes and mango chutney infuse a little sweetness into this vegetarian nod to the classic curried chicken salad.

- | | |
|---|--|
| 3 tablespoons low-fat plain yogurt | 1 14-ounce package extra-firm water-packed tofu, drained, rinsed and finely crumbled (see <i>Tip</i>) |
| 2 tablespoons reduced-fat mayonnaise | 2 stalks celery, diced |
| 2 tablespoons prepared mango chutney | 1 cup red grapes, sliced in half |
| 2 teaspoons hot curry powder, preferably Madras | ½ cup sliced scallions |
| ¼ teaspoon salt | ¼ cup chopped walnuts |
- Freshly ground pepper to taste**

Whisk yogurt, mayonnaise, chutney, curry powder, salt and pepper in a large bowl. Stir in tofu, celery, grapes, scallions and walnuts.

Per serving: 128 calories; 7 g fat (1 g sat, 1 g mono); 0 mg cholesterol; 13 g carbohydrate; 7 g protein; 2 g fiber; 254 mg sodium; 268 mg potassium.

Nutrition bonus: Calcium (17% daily value).

Carbohydrate Servings: 1

Exchanges: 1 other carb, 1 medium-fat meat

Tip: We prefer water-packed tofu from the refrigerated section of the supermarket. Crumbling it into uneven pieces creates more surface area, improving the texture and avoiding the blocky look that turns many people away.

Lentil Burgers

Makes: 4 servings

Active time: 25 minutes **Total:** 25 minutes

To make ahead: Prepare through Step 1, tightly wrap in plastic and refrigerate for up to 1 day or freeze for up to 3 months. If frozen, let defrost in the refrigerator before cooking.

Walnuts and fresh marjoram accent these vegan lentil burgers. Substitute oregano for marjoram if you like. Look for vegetarian Worcestershire—flavored with molasses,

soy sauce and vinegar instead of anchovies—near other bottled sauces in natural-foods stores or in the natural-foods section of well-stocked supermarkets.

- | | |
|--|--|
| 1 large clove garlic, peeled | 2 teaspoons Worcestershire sauce, vegetarian or regular |
| ¼ teaspoon kosher salt | 3 teaspoons canola oil, divided |
| ½ cup walnuts, toasted | 4 whole-wheat hamburger buns, toasted |
| 2 slices whole-wheat sandwich bread, crusts removed, torn into pieces | 4 pieces leaf lettuce |
| 1 tablespoon chopped fresh marjoram or 1 teaspoon dried | 4 slices tomato or jarred roasted red pepper |
| ¼ teaspoon freshly ground pepper | 4 thin slices red onion |
| 1½ cups cooked or canned (rinsed) lentils | |

1. Coarsely chop garlic; sprinkle with salt and mash to a paste with the side of the knife. Coarsely chop walnuts in a food processor. Add bread, marjoram, pepper and the garlic paste; process until coarse crumbs form. Add lentils and Worcestershire; process until the mixture just comes together in a mass. Form into four 3-inch patties (about ⅓ cup each).

2. Heat 2 teaspoons oil in a large nonstick skillet over medium heat. Cook the patties until browned on the bottom, 2 to 4 minutes. Carefully turn over; reduce heat to medium-low. Drizzle the remaining 1 teaspoon oil around the burgers and cook until browned on the other side and heated through, 4 to 6 minutes more. Serve on buns with lettuce, tomato (or red pepper) and onion.

Sweet & Sour Tofu

Makes: 4 servings, 1½ cups each

Active time: 35 minutes **Total:** 40 minutes

To make ahead: The tofu can be marinated (Step 1) up to 30 minutes in advance.

This Chinese-restaurant standard is a simple dish to prepare at home. If you like, add a pinch of crushed red pepper or chile-garlic sauce to give the sauce a little heat.

- | | |
|---|---|
| 1 20-ounce can pineapple chunks or tidbits, packed in juice | 2 teaspoons cornstarch |
| 3 tablespoons rice-wine vinegar | 2 tablespoons canola oil, divided |
| 2 tablespoons ketchup | 2 tablespoons minced garlic |
| 2 tablespoons reduced-sodium soy sauce | 1 tablespoon minced ginger |
| 1 tablespoon brown sugar | 1 large red bell pepper, cut into ½-by-2-inch strips |
| 1 14-ounce package extra-firm water-packed tofu, drained, rinsed and cut into ½-inch cubes | 1 large green bell pepper, cut into ½-by-2-inch strips |

1. Drain and set aside pineapple, reserving ¼ cup of the juice. Whisk the reserved pineapple juice, vinegar, ketchup, soy sauce and sugar in a medium bowl until smooth. Place tofu in a large bowl; toss with 3 tablespoons of the sauce. Let marinate for at least 5 minutes and up to 30 minutes.

2. Meanwhile, add cornstarch to the remaining sauce and whisk until smooth.

3. Heat 1 tablespoon oil in a large nonstick skillet over medium-high heat. Transfer the tofu to the pan using a slotted spoon; whisk any remaining marinade into the bowl of reserved sauce. Cook the tofu, stirring every 1 to 2 minutes, until golden brown, 7 to 9 minutes total. Transfer to a plate.

4. Add the remaining oil to the pan and heat over medium heat. Add garlic and ginger and cook, stirring constantly, until fragrant, about 30 seconds. Add red and green peppers and cook, stirring often, until just tender, 2 to 3 minutes. Pour in the reserved sauce and cook, stirring, until thickened, about 30 seconds. Add the tofu and pineapple and cook, stirring gently, until heated through, about 2 minutes more.

Tofu with Peanut-Ginger Sauce

Makes: 4 servings, generous $\frac{3}{4}$ cup each

Active time: 15 minutes **Total:** 25 minutes

Tofu and vegetables get a dramatic lift from a spicy peanut sauce in this low-calorie, nutrient-packed vegetarian entree.

Sauce

- 5 tablespoons water
- 4 tablespoons smooth natural peanut butter
- 1 tablespoon rice vinegar (*see Tip*) or white vinegar
- 2 teaspoons reduced-sodium soy sauce
- 2 teaspoons honey
- 2 teaspoons minced ginger
- 2 cloves garlic, minced

Tofu & Vegetables

- 14 ounces extra-firm tofu, preferably water-packed
- 2 teaspoons extra-virgin olive oil
- 4 cups baby spinach (6 ounces)
- $1\frac{1}{2}$ cups sliced mushrooms (4 ounces)
- 4 scallions, sliced (1 cup)

1. To prepare sauce: Whisk water, peanut butter, rice vinegar (or white vinegar), soy sauce, honey, ginger and garlic in a small bowl.

2. To prepare tofu: Drain and rinse tofu; pat dry. Slice the block crosswise into eight $\frac{1}{2}$ -inch-thick slabs. Coarsely crumble each slice into smaller, uneven pieces.

3. Heat oil in a large nonstick skillet over high heat. Add tofu and cook in a single layer, without stirring, until the pieces begin to turn golden brown on the bottom, about 5 minutes. Then gently stir and continue cooking, stirring occasionally, until all sides are golden brown, 5 to 7 minutes more.

4. Add spinach, mushrooms, scallions and the peanut sauce and cook, stirring, until the vegetables are just cooked, 1 to 2 minutes more.

Tomato-&-Olive-Stuffed Portobello Caps

Makes: 4 servings

Active time: 35 minutes **Total:** 40 minutes

Portobello caps make excellent mini casseroles. Here, they hold a tomato, cheese and olive stuffing that grills up to a smoky perfection.

- $\frac{3}{8}$ cup chopped plum tomatoes
- $\frac{1}{2}$ cup shredded part-skim mozzarella cheese
- $\frac{1}{4}$ cup chopped Kalamata olives
- 1 teaspoon minced garlic
- 2 teaspoons extra-virgin olive oil, divided
- $\frac{1}{2}$ teaspoon finely chopped fresh rosemary or $\frac{1}{8}$ teaspoon dried
- $\frac{1}{8}$ teaspoon freshly ground pepper
- 4 portobello mushroom caps, 5 inches wide
- 2 tablespoons lemon juice
- 2 teaspoons reduced-sodium soy sauce

1. Combine tomatoes, cheese, olives, garlic, 1 teaspoon oil, rosemary and pepper in a small bowl.

2. Preheat grill to medium.

3. Discard mushroom stems. Remove brown gills from the undersides of the caps using a spoon; discard gills. Mix the remaining 1 teaspoon oil, lemon juice and soy sauce in a small bowl. Brush the mixture over both sides of the caps.

4. Oil a grill rack (*see Tip*). Place the caps on the rack, stem sides down, cover and grill until soft, about 5 minutes per side. Remove from the grill and fill with the tomato mixture. Return to the grill, cover, and cook until the cheese is melted, about 3 minutes more.

To oil a grill rack: Oil a folded paper towel, hold it with tongs and rub it over the rack. (Do not use cooking spray on a hot grill.)

White Bean Soup (Fassoulatha)

Makes: 8 servings

Active time: 30 minutes **Total:** 2½ hours

Creamy white beans provide the heft and protein to this simple, flavorful soup. The recipe calls for dried beans, but to make this recipe in under 30 minutes, you can use four 15-ounce cans of your favorite white beans (rinse well to cut the sodium in the canning liquid).

Grilled Rosemary-Salmon Skewers

Makes: 4 servings, 2 skewers each

Active time: 30 minutes **Total:** 30 minutes

To make ahead: Prepare the skewers (Step 2), cover and refrigerate for up to 8 hours. Proceed with grilling (Steps 1 & 3) when ready to serve.

Equipment: Eight 12-inch skewers

If you can find (or grow) them, use sturdy rosemary branches, stripped of leaves, as skewers for these Italian salmon kebabs; they'll add a subtle, smoky flavor that hints of pine. Oil your grill well to prevent sticking, don't move the kebabs around unnecessarily and keep a close eye on the fire to avoid flare-ups.

- | | |
|--------------------------------------|--|
| 2 teaspoons minced fresh rosemary | ½ teaspoon kosher salt |
| 2 teaspoons extra-virgin olive oil | ¼ teaspoon freshly ground pepper |
| 2 cloves garlic, minced | 1 pound center-cut salmon fillet, skinned (see <i>Tip, page 19</i>) and cut into 1-inch cubes |
| 1 teaspoon freshly grated lemon zest | 1 pint cherry tomatoes |
| 1 teaspoon lemon juice | |

1. Preheat grill to medium-high.
 2. Combine rosemary, oil, garlic, lemon zest, lemon juice, salt and pepper in a medium bowl. Add salmon; toss to coat. Alternating the salmon and tomatoes, divide among eight 12-inch skewers.

Oven-Fried Fish & Chips

Makes: 4 servings

Active time: 25 minutes **Total:** 45 minutes

Fish and chips are traditionally sold wrapped in paper to soak up all the grease—not a good sign. To cut the calories in half and reduce the fat, this recipe coats the delicate fish in a crispy cornflake crust and then bakes it along with sliced potatoes.

Canola or olive oil cooking spray	2 cups cornflakes
1½ pounds russet potatoes, scrubbed and cut into ¼-inch-thick wedges	¼ cup all-purpose flour
4 teaspoons canola oil	¼ teaspoon salt
1½ teaspoons Cajun or Creole seasoning, divided	2 large egg whites, beaten
	1 pound cod or haddock, cut into 4 portions

1. Position racks in upper and lower third of oven; preheat to 425°F. Coat a large baking sheet with cooking spray. Set a wire rack on another large baking sheet; coat with cooking spray.

2. Place potatoes in a colander. Thoroughly rinse with cold water, then pat dry completely with paper towels. Toss the potatoes, oil and ¾ teaspoon Cajun (or Creole) seasoning in a large bowl. Spread on the baking sheet without the rack. Bake on the lower oven rack, turning every 10 minutes, until tender and golden, 30 to 35 minutes.

3. Meanwhile, coarsely grind cornflakes in a food processor or blender or crush in a sealable plastic bag. Transfer to a shallow dish. Place flour, the remaining ¾ teaspoon Cajun (or Creole) seasoning and salt in another shallow dish and egg whites in a third shallow dish. Dredge fish in the flour mixture, dip it in egg white and then coat all sides with the ground cornflakes. Place on the prepared wire rack. Coat both sides of the breaded fish with cooking spray.

4. Bake the fish on the upper oven rack until opaque in the center and the breading is golden brown and crisp, about 20 minutes.

Wasabi Salmon Burgers

Makes: 4 servings

Active time: 30 minutes **Total:** 30 minutes

Bring out the flavors of salmon with a Japanese-inspired infusion of ginger, sesame oil and wasabi. You could also serve these on whole-wheat buns, perhaps with reduced-fat mayonnaise and sliced cucumbers as condiments—just account for calories accordingly.

2 tablespoons reduced-sodium soy sauce	2 scallions, finely chopped
1½ teaspoons wasabi powder (see <i>Tip</i>)	1 egg, lightly beaten
½ teaspoon honey	2 tablespoons minced peeled fresh ginger
1 pound salmon fillet, skinned (see <i>Tip, page 19</i>)	1 teaspoon toasted sesame oil

1. Whisk soy sauce, wasabi powder and honey in a small bowl until smooth. Set aside.
2. With a large chef's knife, chop salmon using quick, even, straight-up-and-down motions (do not rock the knife through the fish or it will turn mushy). Continue chopping, rotating the knife, until you have a mass of roughly ¼-inch pieces. Transfer to a large bowl. Add scallions, egg, ginger and oil; stir to combine. Form the mixture into 4 patties. The mixture will be moist and loose, but holds together nicely once the first side is cooked.
3. Coat a large nonstick skillet with cooking spray and heat over medium heat for 1 minute. Add the patties and cook for 4 minutes. Turn and continue to cook until firm and fragrant, about 3 minutes. Spoon the reserved wasabi glaze evenly over the burgers and cook for 15 seconds more. Serve immediately.

Tip: It's difficult to find an individual chicken breast small enough for one portion. Removing the thin strip of meat from the underside of a 5-ounce breast—the chicken tender—removes about 1 ounce of meat and yields a perfect 4-ounce portion. Wrap and freeze the tenders and when you have gathered enough, use them in a stir-fry or for oven-baked chicken fingers.

1. Preheat oven to 450°F. Whisk flour, ½ teaspoon salt and pepper in a shallow dish. Dredge turkey in the mixture. (Discard any leftover flour.)
 2. Heat oil in a large ovenproof skillet over high heat. Add the turkey; cook until golden brown on one side, 3 to 5 minutes. Turn the turkey over and transfer the pan to the oven. Roast until the turkey is just cooked through and no longer pink in the middle, 15 to 20 minutes. Transfer the turkey to a plate and tent with foil to keep warm.
 3. Place the skillet over medium heat. (Take care, the handle will still be very hot.) Add shallots and thyme and cook, stirring constantly, until the shallots begin to brown, 30 seconds to 1 minute. Add blueberries, vinegar and the remaining ¼ teaspoon salt; continue cooking, stirring occasionally and scraping up any brown bits, until the blueberries burst and release their juices and the mixture becomes thick and syrupy, 4 to 5 minutes. Slice the turkey and serve with the blueberry pan sauce.

Apple-&Fennel Roasted Pork Tenderloin

Makes: 4 servings

Active time: 45 minutes **Total:** 45 minutes

Roasted apples, fennel and red onion team up perfectly with roasted pork tenderloin.

- | | |
|---|---|
| 2 large sweet-tart apples, such as Fuji or Braeburn, sliced | 1 tablespoon plus 2 teaspoons canola oil, divided |
| 1 large bulb fennel, trimmed, cored and thinly sliced, plus 1 tablespoon chopped fronds for garnish | 1 pound pork tenderloin, trimmed |
| 1 large red onion, sliced | 1 teaspoon kosher salt |
| | ¼ teaspoon freshly ground pepper |
| | 3 tablespoons cider vinegar |

1. Position racks in upper and lower thirds of oven; preheat to 475°F.
 2. Toss apples, sliced fennel and onion with 1 tablespoon oil in a large bowl. Spread out on a rimmed baking sheet. Roast on the lower oven rack, stirring twice, until tender and golden, 30 to 35 minutes.
 3. About 10 minutes after the apple mixture goes into the oven, sprinkle pork with salt and pepper. Heat the remaining 2 teaspoons oil in a large ovenproof skillet over medium-high heat. Sear the pork on one side, about 2 minutes. Turn the pork over and transfer the pan to the top oven rack. Roast until just barely pink in the center and an instant-read thermometer registers 145°F, 12 to 14 minutes.
 4. Transfer the pork to a cutting board and let rest for 5 minutes. Immediately stir vinegar into the pan (be careful, the handle will be hot), scraping up any browned bits, then add to the apple mixture. Thinly slice the pork; serve with the apple mixture and sprinkle with fennel fronds.

Pork Chops with Orange-Soy Sauce

Makes: 4 servings

Active time: 20 minutes **Total:** 30 minutes

This dish uses a very traditional French technique: you first brown meat in a skillet, then roast it in the oven. Make sure you use cookware that's oven-safe, preferably cast iron or stainless steel.

- | | |
|--|---|
| 1 cup orange juice | 4 bone-in pork chops (1½-1¾ pounds), trimmed |
| 1 tablespoon reduced-sodium soy sauce | ¼ teaspoon salt, or to taste |
| 2 cloves garlic, minced | Freshly ground pepper to taste |
| ½ teaspoon dried thyme | 2 teaspoons canola oil |

1. Preheat oven to 400° F. Combine orange juice, soy sauce, garlic and thyme in a small bowl. Set aside.
2. Season pork chops with salt and pepper. Heat oil in a large ovenproof skillet, preferably cast-iron, over high heat. Add the pork chops and sear until browned, 1 to 2 minutes per side.
3. Transfer the pan to the oven and bake the chops until just cooked through, about 5 minutes. Transfer the chops to a plate and keep warm.
4. Add the reserved orange juice mixture to the pan (take care, the handle will still be hot); cook over high heat until the sauce is reduced by half, 3 to 5 minutes. Return the chops to the skillet; heat through, turning to coat. Serve with the pan sauce.

Whole-Wheat Fusilli with Beef Ragu

Makes: 6 servings, about 1½ cups each

Active time: 30 minutes **Total:** 1 hour

To make ahead: Prepare through Step 3. Cover and refrigerate the sauce for up to 2 days or freeze for up to 3 months.

This chunky, full-bodied sauce is a good match for hearty whole-wheat pasta. A little lean ground beef augmented with mushrooms equals a rich, meaty sauce that has a minimum of saturated fat.

- | | |
|--|--|
| 8 ounces 90%-lean ground beef | ½ cup dry red wine |
| 1 teaspoon extra-virgin olive oil | 1-2 teaspoons fennel seeds, crushed |
| 2 medium carrots, chopped | Large pinch of crushed red pepper |
| 1 medium onion, chopped | ¼ teaspoon salt, or to taste |
| 1 stalk celery, chopped | 12 ounces whole-wheat fusilli or rotini |
| 6 ounces cremini or baby bella mushrooms, wiped clean and coarsely chopped (2 cups) | 2 tablespoons chopped fresh parsley (optional) |
| 2 cloves garlic, minced | 6 tablespoons freshly grated Parmesan cheese (optional) |
| 1 28-ounce can diced tomatoes (not drained) | |

1. Cook beef in a large skillet over medium-high heat, breaking it up with a wooden spoon, until browned, 4 to 5 minutes. Transfer to a strainer or colander and drain off fat.
 2. Heat oil in the skillet over medium-high heat. Add carrots, onion and celery; cook, stirring occasionally, until the onion softens and begins to brown, 4 to 5 minutes. Add mushrooms and garlic; reduce heat to medium and cook, stirring occasionally, until the mushrooms begin to soften, 3 to 4 minutes.
 3. Add tomatoes and mash with a potato masher. Add wine, fennel seeds, crushed red pepper, salt and the meat; bring to a simmer. Reduce heat to low; cover and cook, stirring occasionally, until the sauce is slightly thickened and the flavors have developed, about 30 minutes.
 4. Meanwhile, bring a large pot of lightly salted water to a boil. Cook pasta until just tender, 9 to 11 minutes or according to package directions. Drain and toss with the sauce. Sprinkle with parsley, if desired. Pass Parmesan separately, if using.
